Mrs. Hunt/man/SAFOICC/72842/27 Sep 65

SEP 28 1965

Dear Mr. [REDACTED]

This is in reply to your request for information on your aerial observation of 4 September 1965.

The description, duration, and direction of flight are characteristic of satellites. On 4 September, Echo II was traveling northeast of New York at 7:28 p.m. Eastern Standard Time. If the time of your observation was Eastern Daylight Time, the object you observed was Echo II. If the time was not Eastern Daylight Time, then you probably observed one of the other 30 satellites or satellite components which are visible to the naked eye.

Thank you for reporting your observation to the Air Force.

Sincerely,

JOHN P. SPAULDING  
Lt Colonel, USAF  
Chief, Civil Branch  
Community Relations Division  
Office of Information.

Mr. [REDACTED]

REPLY TO  
ATTN OF: TDEW

SEP 21 1965

SUBJECT: UFO Sighting, Ozone Park, New York, 4 Sep 65

TO: Hq USAF SAFOICC (Mrs Hunt)  
Wash D C 20330

Reference the attached letter from [REDACTED] requesting information on his observation of 4 Sep 65. The description, duration and direction of flight are in accord with a satellite observation. Echo II was traveling northeast at 728pm EST over New York on 4 Sep. If the time given in his letter was actually EDT then he observed the satellite Echo II. If this is not the case then he probably observed one of the other thirty satellites and satellite components in orbit which are visible to the naked eye.

FOR THE COMMANDER

ERIC T de JONCKHEERE  
Colonel, USAF  
Deputy for Technology and Subsystems

Ltr [REDACTED]

YOU - THE NUCLEUS OF SECURITY!

Dear Sirs,

I am a 14 year old high school student and a resident of Ozone Park, N.Y. On the night of Sept. 4, 1955 at approximately 8:30 E.S.T. I saw what I believe is a U.F.O. It was traveling in a northerly direction. It was not a star because it did not twinkle. Using my binoculars which had a power of 393 ft at 1000 yds I focused my binoculars on the object ~~it~~ and it appeared to have a triangular shape and had a very bright white color to it. Surrounding the object was a silveryish white halo. It was moving at a steady

place is here about 1 1/2 miles  
from Kennedy International  
Airport. If you can could  
you please tell me what it  
was and give me some inform-  
ation on it. By information, I  
mean if it was a satellite  
please give me the name of it  
and other data on it.

And also if you can give  
me some literature on Pipe  
Kennedy

Yours Truly
